

The proper fit is the most important factor in choosing the Cocoons size that is right for you. This sizing guide will help you determine which Cocoons size will best fit over your prescription glasses. To determine your size place your prescription glasses face down on the sizing chart. Line the left edge of your frame up with the left edge of the guide and the bottom of your lenses (including the frame around them) up with the bottom edge of the guide. Whatever box your frames are completely contained in is the Cocoons size that is right for you. As an example, the frames shown in the guide need a Slim Line. Although they fit within the height limitation of the Mini Slim, they do not fit within the width limitation of the Mini Slim. The height and width of the Slim Line will accommodate this frame.

STREAM LINE

Fits up to 43/4" w x 13/8" h

MINI SLIM

Fits up to 415/16" w x 11/2" h

SLIM LINE

Fits up to 53/8" w x 15/8" h
